

1       Section 1. Section 45 of the code is repealed

2       "(a) Not later than July 1, 2017, the Water Planning Council,  
3       established pursuant to section 25-33o, shall, within available  
4       appropriations, prepare a state water plan for the management of the  
5       water resources of the state. In developing such state water plan, the  
6       Water Planning Council shall: (1) Design a unified planning program  
7       and budget; (2) consider regional water and sewer facilities plans; (3)  
8       identify the appropriate regions of the state for comprehensive water  
9       planning; (4) identify the data needs and develop a consistent format  
10      for submitting data to the council, applicable state agencies and  
11      regional councils of governments for use in planning and permitting;  
12      (5) consider the potential impact of climate change on the availability  
13      and abundance of water resources and the importance of climate  
14      resiliency; (6) seek involvement of interested parties; (7) solicit input  
15      from the advisory group established pursuant to section 25-33o; (8)  
16      consider individual water supply plans, water quality standards,  
17      stream flow classifications, as described in regulations adopted  
18      pursuant to section 26-141b, water utility coordinating committee  
19      plans, the state plan of conservation and development, as described in  
20      section 16a-30, and any other planning documents deemed necessary  
21      by the council; (9) promote the adoption of municipal ordinances  
22      based on the State of Connecticut Model Water Use Restriction

23 Ordinance for municipal water emergencies; and (10) examine  
24 appropriate mechanisms for resolving conflicts related to the  
25 implementation of the state water plan.

27 [\(ii\) antohter](#)

28 (b) The state water plan developed pursuant to subsection (a) of this  
29 section shall: (1) Identify the quantities and qualities of water that are  
30 available for public water supply, health, economic, recreation and  
31 environmental benefits on a regional basin scale considering both  
32 surface water and groundwater; (2) identify present and projected  
33 demands for water resources on a state-wide and regional basin scale;  
34 (3) recommend the utilization of the state's water resources, including  
35 surface and subsurface water, in a manner that balances public water  
36 supply, economic development, recreation and ecological health; (4)  
37 recommend steps to increase the climate resiliency of existing water  
38 resources and infrastructure; (5) make recommendations for  
39 technology and infrastructure upgrades, interconnections and such  
40 major engineering works or special districts which may be necessary,  
41 including the need, timing and general cost thereof; (6) recommend  
42 land use and other measures, including an assessment of land  
43 acquisition or land protection needs, where appropriate to ensure the  
44 desired quality and abundance of water and to promote development  
45 in concert with available water resources; (7) take into account desired  
46 ecological, recreational, agricultural, industrial and commercial use of  
47 water bodies; (8) inform residents of the state about the importance of  
48 water-resource stewardship and conservation; (9) establish  
49 conservation guidelines and incentives for consumer water  
50 conservation with due consideration for energy efficiency; (10) develop  
51 a water reuse policy with incentives for matching the quality of the

52 water to the use; (11) meet data collection and analysis needs to  
53 provide for data driven water planning and permitting decisions; (12)  
54 take into account the ecological, environmental, public health and  
55 safety and economic impact that implementation of the state water  
56 plan will have on the state; (13) include short and long-range objectives  
57 and strategies to communicate and implement the plan; (14) seek to  
58 incorporate regional and local plans and programs for water use and  
59 management and plans for water and sewerage facilities in the state  
60 water plan; (15) promote intraregional solutions and sharing of water  
61 resources; (16) develop and recommend strategies to address climate  
62 resiliency including the impact of extreme weather events; and (17)  
63 identify modifications to laws and regulations that are necessary in  
64 order to implement the recommendations of the state water plan.

65 (c) The Water Planning Council shall provide a time period of not  
66 less than one hundred twenty days for public review and comment  
67 prior to finalizing such plan. The Commissioners of Public Health and  
68 Energy and Environmental Protection, the chairperson of the Public  
69 Utilities Regulatory Authority and the Secretary of the Office of Policy  
70 and Management shall post such draft plan and information  
71 concerning such comment period in a conspicuous location on their  
72 respective web sites. The Council on Environmental Quality shall post  
73 such draft plan and information concerning such comment period in  
74 the Environmental Monitor. The Water Planning Council shall  
75 advertise and hold not less than one public hearing during such public  
76 review and comment period. After such public comment period, the  
77 council shall fully consider all written and oral comments concerning  
78 the proposed state water plan. The council shall make available the  
79 electronic text of the finalized state water plan on an Internet web site  
80 where the finalized state water plan shall be posted and a report  
81 summarizing: (1) All public comments received pursuant to this

82 subsection, and (2) the changes made to the finalized state water plan  
83 in response to such comments and the reasons for such changes.

84 (d) Not later than January 1, 2018, the Water Planning Council, in  
85 accordance with section 11-4a, shall submit the state water plan to the  
86 joint standing committees of the General Assembly having cognizance  
87 of matters relating to the environment, public health, planning and  
88 development and energy and technology for said committees'  
89 approval or disapproval and any recommendations for revisions to the  
90 plan. The council shall submit such report to the Governor  
91 electronically.

92 (e) Said joint standing committees shall conduct a joint public  
93 hearing on the state water plan not later than forty-five days after  
94 receiving the plan pursuant to subsection (d) of this section, provided  
95 the Water Planning Council submits the plan at least sixty days prior  
96 to the end of the 2018 regular session of the General Assembly. If the  
97 Water Planning Council does not submit the plan at least sixty days  
98 prior to the end of the 2018 regular session, said joint standing  
99 committees shall conduct a joint public hearing on the plan not later  
100 than forty-five days after the convening of the 2019 regular session of  
101 the General Assembly. Not later than forty-five days after the joint  
102 public hearing, said joint standing committees shall either submit the  
103 plan with said joint standing committees' joint recommendations for  
104 approval to the General Assembly or return the plan to the Water  
105 Planning Council indicating their disapproval and any  
106 recommendations for revisions to the plan.

107 (f) In the event that the General Assembly disapproves or fails to act  
108 on the state water plan, in whole or in part, the state water plan shall  
109 be deemed to be rejected and shall be returned to the Water Planning

110 Council for revisions and resubmittal to the General Assembly in  
111 accordance with the provisions of subsection (f) of this section.

112 (g) The Water Planning Council shall oversee the implementation  
113 and periodic updates of the state water plan. On or before January 1,  
114 2016, and annually thereafter, the Water Planning Council shall submit  
115 a report, in accordance with section 11-4a, to the joint standing  
116 committees of the General Assembly having cognizance of matters  
117 relating to the environment, public health, planning and development  
118 and energy and technology on the status of the development and  
119 implementation of the state water plan and any updates to such plan.  
120 On and after January 1, 2016, the report required by this subsection  
121 shall supplant the requirement for an annual report as required  
122 pursuant to section 25-33o."
