

AN ACT CONCERNING THE HEALTH CARE

Be it enacted by the Senate

1 Section 1. Section 22-35 of the general statutes is repealed

2 (a) Not later than July 1, 2017, the Water Planning Council,
3 established pursuant to section 25-33o, shall, within available
4 appropriations, prepare a state water plan for the management of the
5 water resources of the state. In developing such state water plan, the
6 Water Planning Council shall: (1) Design a unified planning program
7 and budget; (2) consider regional water and sewer facilities plans; (3)
8 identify the appropriate regions of the state for comprehensive water
9 planning; (4) identify the data needs and develop a consistent format
10 for submitting data to the council, applicable state agencies and
11 regional councils of governments for use in planning and permitting;
12 (5) consider the potential impact of climate change on the availability
13 and abundance of water resources and the importance of climate
14 resiliency; (6) seek involvement of interested parties; (7) solicit input
15 from the advisory group established pursuant to section 25-33o; (8)
16 consider individual water supply plans, water quality standards,
17 stream flow classifications, as described in regulations adopted
18 pursuant to section 26-141b, water utility coordinating committee

19 plans, the state plan of conservation and development, as described in
20 section 16a-30, and any other planning documents deemed necessary
21 by the council; (9) promote the adoption of municipal ordinances
22 based on the State of Connecticut Model Water Use Restriction
23 Ordinance for municipal water emergencies; and (10) examine
24 appropriate mechanisms for resolving conflicts related to the
25 implementation of the state water plan.

26 (b) A new paragraph

27 (c) Another

28 (d) The information, this paragraph is a multiline paragraph, to
29 show how to deal with many lines inside an amendment. This is the
30 first test we do over an amendment.

31 (e) The last one.

32 ([b] F) The state water plan developed pursuant to subsection (a) of
33 this section shall: (1) Identify the quantities and qualities of water that
34 are available for public water supply, health, economic, recreation and
35 environmental benefits on a regional basin scale considering both
36 surface water and groundwater; (2) identify present and projected
37 demands for water resources on a state-wide and regional basin scale;
38 (3) recommend the utilization of the state's water resources, including
39 surface and subsurface water, in a manner that balances public water
40 supply, economic development, recreation and ecological health; (4)
41 recommend steps to increase the climate resiliency of existing water
42 resources and infrastructure; (5) make recommendations for
43 technology and infrastructure upgrades, interconnections and such
44 major engineering works or special districts which may be necessary,
45 including the need, timing and general cost thereof; (6) recommend

46 land use and other measures, including an assessment of land
47 acquisition or land protection needs, where appropriate to ensure the
48 desired quality and abundance of water and to promote development
49 in concert with available water resources; (7) take into account desired
50 ecological, recreational, agricultural, industrial and commercial use of
51 water bodies; (8) inform residents of the state about the importance of
52 water-resource stewardship and conservation; (9) establish
53 conservation guidelines and incentives for consumer water
54 conservation with due consideration for energy efficiency; (10) develop
55 a water reuse policy with incentives for matching the quality of the
56 water to the use; (11) meet data collection and analysis needs to
57 provide for data driven water planning and permitting decisions; (12)
58 take into account the ecological, environmental, public health and
59 safety and economic impact that implementation of the state water
60 plan will have on the state; (13) include short and long-range objectives
61 and strategies to communicate and implement the plan; (14) seek to
62 incorporate regional and local plans and programs for water use and
63 management and plans for water and sewerage facilities in the state
64 water plan; (15) promote intraregional solutions and sharing of water
65 resources; (16) develop and recommend strategies to address climate
66 resiliency including the impact of extreme weather events; and (17)
67 identify modifications to laws and regulations that are necessary in
68 order to implement the recommendations of the state water plan.

69 (c) The Water Planning Council shall provide a time period of not
70 less than one hundred twenty days for public review and comment
71 prior to finalizing such plan. The Commissioners of Public Health and
72 Energy and Environmental Protection, the chairperson of the Public
73 Utilities Regulatory Authority and the Secretary of the Office of Policy
74 and Management shall post such draft plan and information
75 concerning such comment period in a conspicuous location on their
76 respective web sites. The Council on Environmental Quality shall post

77 such draft plan and information concerning such comment period in
78 the Environmental Monitor. The Water Planning Council shall
79 advertise and hold not less than one public hearing during such public
80 review and comment period. After such public comment period, the
81 council shall fully consider all written and oral comments concerning
82 the proposed state water plan. The council shall make available the
83 electronic text of the finalized state water plan on an Internet web site
84 where the finalized state water plan shall be posted and a report
85 summarizing: (1) All public comments received pursuant to this
86 subsection, and (2) the changes made to the finalized state water plan
87 in response to such comments and the reasons for such changes.

88 (d) Not later than January 1, 2018, the Water Planning Council, in
89 accordance with section 11-4a, shall submit the state water plan to the
90 joint standing committees of the General Assembly having cognizance
91 of matters relating to the environment, public health, planning and
92 development and energy and technology for said committees'
93 approval or disapproval and any recommendations for revisions to the
94 plan. The council shall submit such report to the Governor
95 electronically.

96 (e) Said joint standing committees shall conduct a joint public
97 hearing on the state water plan not later than forty-five days after
98 receiving the plan pursuant to subsection (d) of this section, provided
99 the Water Planning Council submits the plan at least sixty days prior
100 to the end of the 2018 regular session of the General Assembly. If the
101 Water Planning Council does not submit the plan at least sixty days
102 prior to the end of the 2018 regular session, said joint standing
103 committees shall conduct a joint public hearing on the plan not later
104 than forty-five days after the convening of the 2019 regular session of
105 the General Assembly. Not later than forty-five days after the joint
106 public hearing, said joint standing committees shall either submit the

107 plan with said joint standing committees' joint recommendations for
108 approval to the General Assembly or return the plan to the Water
109 Planning Council indicating their disapproval and any
110 recommendations for revisions to the plan.

111 (f) In the event that the General Assembly disapproves or fails to act
112 on the state water plan, in whole or in part, the state water plan shall
113 be deemed to be rejected and shall be returned to the Water Planning
114 Council for revisions and resubmittal to the General Assembly in
115 accordance with the provisions of subsection (f) of this section.

116 (g) The Water Planning Council shall oversee the implementation
117 and periodic updates of the state water plan. On or before January 1,
118 2016, and annually thereafter, the Water Planning Council shall submit
119 a report, in accordance with section 11-4a, to the joint standing
120 committees of the General Assembly having cognizance of matters
121 relating to the environment, public health, planning and development
122 and energy and technology on the status of the development and
123 implementation of the state water plan and any updates to such plan.
124 On and after January 1, 2016, the report required by this subsection
125 shall supplant the requirement for an annual report as required
126 pursuant to section 25-33o.
